

Historical Council – Presentation Letter

My name is Daniel Pieschacón, student from Colegio San José and I have participated in 3 ONU models, where I've earned experience and knowledge about what is to take part in such an important event like this one. In my third model I won the recognition of best co-president, not only because of the clean job I made, but because I helped with the orientation of the new delegates, pushing and providing them some tools that would help me on my first model, that is why I consider that I can be a capable president in this model, I know the labor of how to lead and guide people who need it.
